NOTES

CONSTELLATION SNOW LABEL

Constellation Snow Label is an uncoated, embossed paper suitable for wet glue labels. For labelling, always observe the correct indications as regards grain direction. It must be parallel to the base of the bottle (see drawings).

APPLICATIONS

Suitable with the main printing systems: offset, blind embossing, hot foil stamping, thermography, screen printing and bronzing. The macroporous surface requires the use of oxidative drying inks.

PRINTING SUGGESTIONS

The varnish coated with an offset machine is almost fully absorbed and therefore does not improve gloss or protection. Good results with major processing operations such as: cutting, die-cutting and glueing.

CONVERTING SUGGESTIONS
