Product Data Sheet ETI/175 Update 09/2015 Rev. nº 07 Corolla Label is an uncoated laid paper which has been specially developed for the labels sector. For labelling, always observe the correct indications as regards grain direction. It must be parallel to the base of the bottle (see drawings).

Form of the label
Rolling after wetting the back of the label.

Image: state stat

Can be used without problems with the main printing systems: letterpress, offset, blind embossing, hot foil stamping, thermography, screen printing and bronzing. The macro-porous surface requires the use of oxidative drying inks.

printing suggestions

applications

The varnishing coated with an offset machine is almost fully absorbed and therefore does not improve gloss or protection. Good results with major processing operations such as: cutting, die-cutting and glueing.
