unit of measure

Relative Humidity 50% ± 5
ref. TAPPI 502-98

ECOLOGICAL
FEATURES

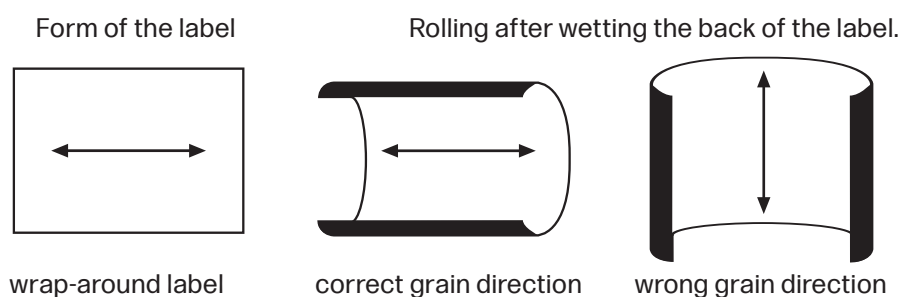

The product is completely biodegradable.
Special runs available upon request.

NOTES

STUCCO COROLLA LABEL

Stucco Corolla Label has been specially developed for the label sector to exploit the features of laid products together with printing performance of a coated media. For labelling, always observe the correct indications as regards grain direction. It must be parallel to the base of the bottle (see drawings).

APPLICATIONS

Can be used without problems with the main printing systems: letterpress, offset, blind embossing, hot foil stamping, thermography, screen printing and bronzing. In offset printing the macro-porous surface requires the use of oxidative drying inks.

PRINTING SUGGESTIONS

Good results with major processing operations such as: cutting, die-cutting and glueing.

CONVERTING SUGGESTIONS
