SYMBOL BAGS

Symbol Bags is a paper specially designed for the manufacturing of carrier bags. Its high quality physical-mechanical characteristics, together with an excellent printing result, make Symbol Bags the ideal paper for this application.

APPLICATIONS

Can be used without problems with the main printing systems: letterpress, offset, blind embossing, hot foil stamping, thermography and screen-printing. For offset printing, the characteristics of the coated side are comparable to our Symbol Freelifa Satin, and the uncoated side is designed to provide good printability, also with solid colours.

PRINTING SUGGESTIONS

Good results are obtained with all major processing operations such as: cutting, die-cutting, scoring, folding, gluing, varnishing and plastic lamination.

CONVERTING SUGGESTIONS
