NOTES

CONTOUR GREASE-PROOF

Contour Grease-Proof is an embossed uncoated paper developed for wet glue labels focused in particular to olive oil and oil products based. For labelling, always observe the correct indications as regards grain direction. It must be parallel to the base of the bottle (see drawings).

APPLICATIONS

Suitable with the main printing systems: offset, blind embossing, hot foil stamping, thermography, screen printing and flexography. With offset printing, it's recommend the use of UV or H-UV drying inks.

PRINTING SUGGESTIONS

The varnish coated with an offset machine is almost fully absorbed and therefore does not improve gloss or protection. Good results with major processing operations such as: cutting, die-cutting and glueing.

CONVERTING SUGGESTIONS
