NOTES

MARTELÉ WS WASH- OFF

For labelling, always observe the correct indications as regards grain direction. It must be parallel to the base of the bottle (see drawings).

APPLICATIONS

Suitable with the main printing systems: offset, blind embossing, hot foil stamping, thermography, screen printing and flexography. With offset printing, it's recommend the use of UV or H-UV drying inks.

PRINTING SUGGESTIONS

The varnish printed with an offset machine is almost fully absorbed and therefore it doesn't improve gloss or protection. Good results with major processing operations such as: cutting, die-cutting and glueing.

CONVERTING SUGGESTIONS
